Your Growth Partner Across the CPG / FMCG Value Chain

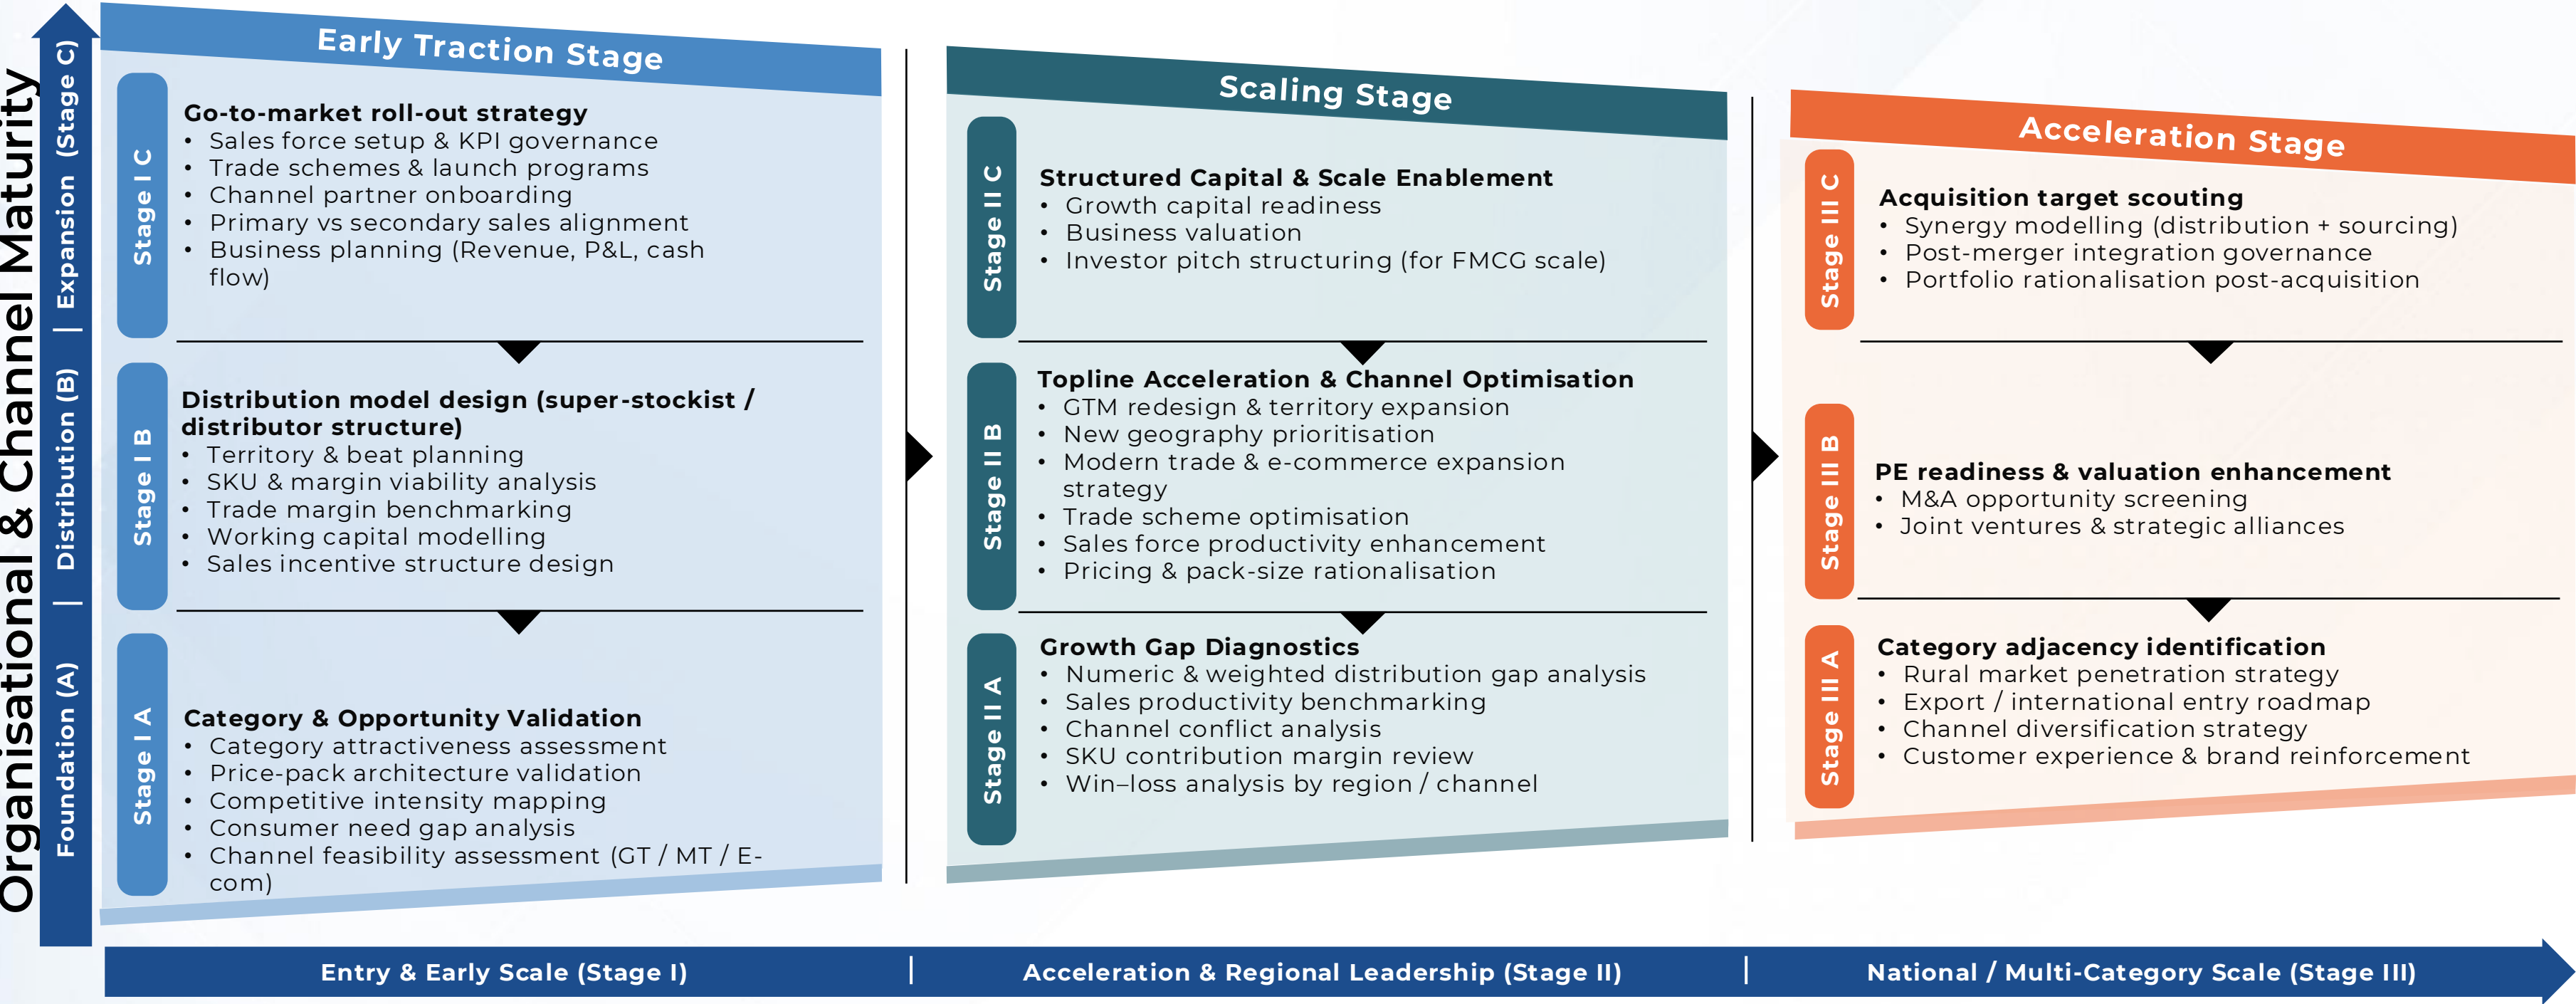

From Market Entry to Distribution Leadership & Margin Expansion

GreyRadius Solutions

Aligned to Different Product & Growth Stage

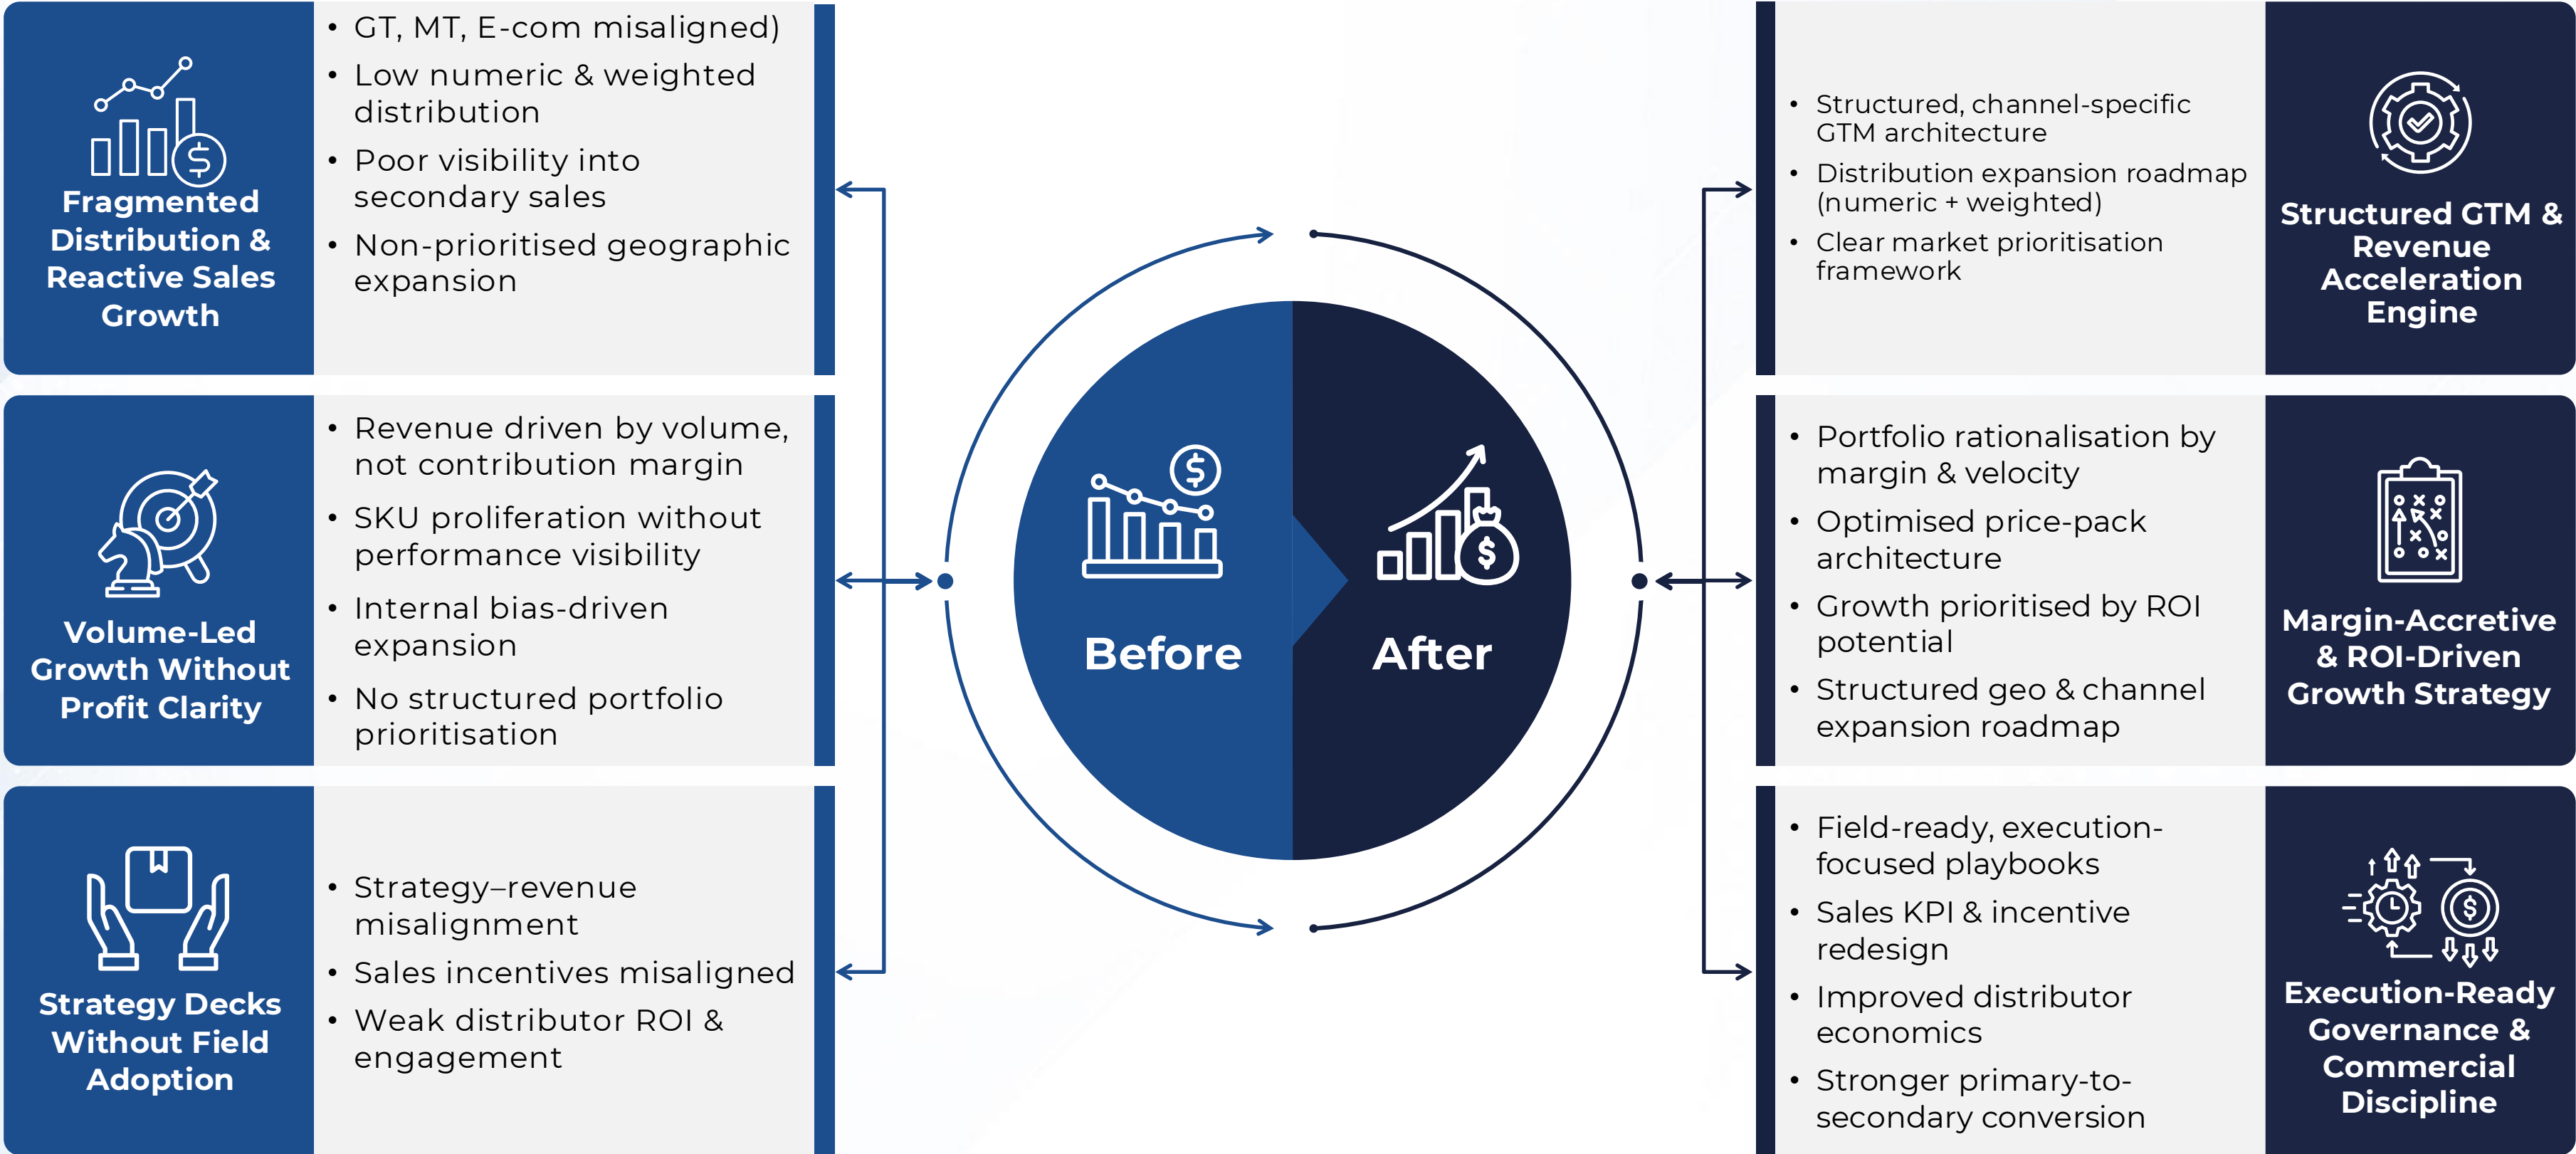

Company Maturity Stage x Growth Stage Matrix

Revenue & Distribution Growth Stage (Stage I, II, III)

Transformational Impact Delivered

Take actionable decisions based on the external view

Our Approach and Frameworks

Grounded in On-Ground Primary Intelligence

Primary research capabilities built for FMCG distribution, trade & consumer ecosystems

 In-House Trade & Channel Intelligence Team	GreyRadius operates a bilingual primary calling team experienced in conducting structured CATI interviews across: • Distributors & Super-stockists Retailers (GT & MT) • Modern Trade Category Managers E-commerce Sellers • Industry Experts & Competitors	➔ We capture: • Secondary sales realities • Trade scheme effectiveness • Margin expectations • Channel conflict signals • Expansion readiness
 In-House Retail & Market Immersion Team	Our field research specialists conduct structured on-ground assessments including: • Retail audits & shelf-share mapping Numeric & weighted distribution validation • Mystery shopping & trade scheme validation Distributor satisfaction studies • Beat mapping & territory analysis Geo-level demand assessment	➔ Ensures strategy is validated at the point of sale, not just at boardroom
 Survey Design & Strategic Advisory Integration	Our in-house survey design and consulting team ensures that every study: Aligns to commercial objectives Answers revenue-critical questions Translates insights into GTM decisions Feeds directly into execution playbooks	➔ We don't just gather data, we convert market intelligence into actionable revenue levers

 Expert & Industry Interviews	 Distributor & Retailer Surveys	 Trade Satisfaction & ROI Studies
 Consumer Behaviour & Purchase Drivers Analysis	 Descriptive & Diagnostic Market Studies	 Explanatory Revenue & Margin Assessments

Opportunity Assessment & Validation

Turning market ambiguity into informed Go / No-Go outcomes

Structured Go/No-Go evaluation and new category / new geography opportunity validation for CPG / FMCG brands. Leverage category intelligence, channel insights, competitive benchmarking, consumer behaviour assessment, and commercial readiness evaluation.

Opportunity Mapping and Prioritization

Identifying High-Impact, Margin-Accretive Growth Levers

Opportunity Heat Map with Commercial Impact Scoring

OPPORTUNITY ASSESSMENT MATRIX

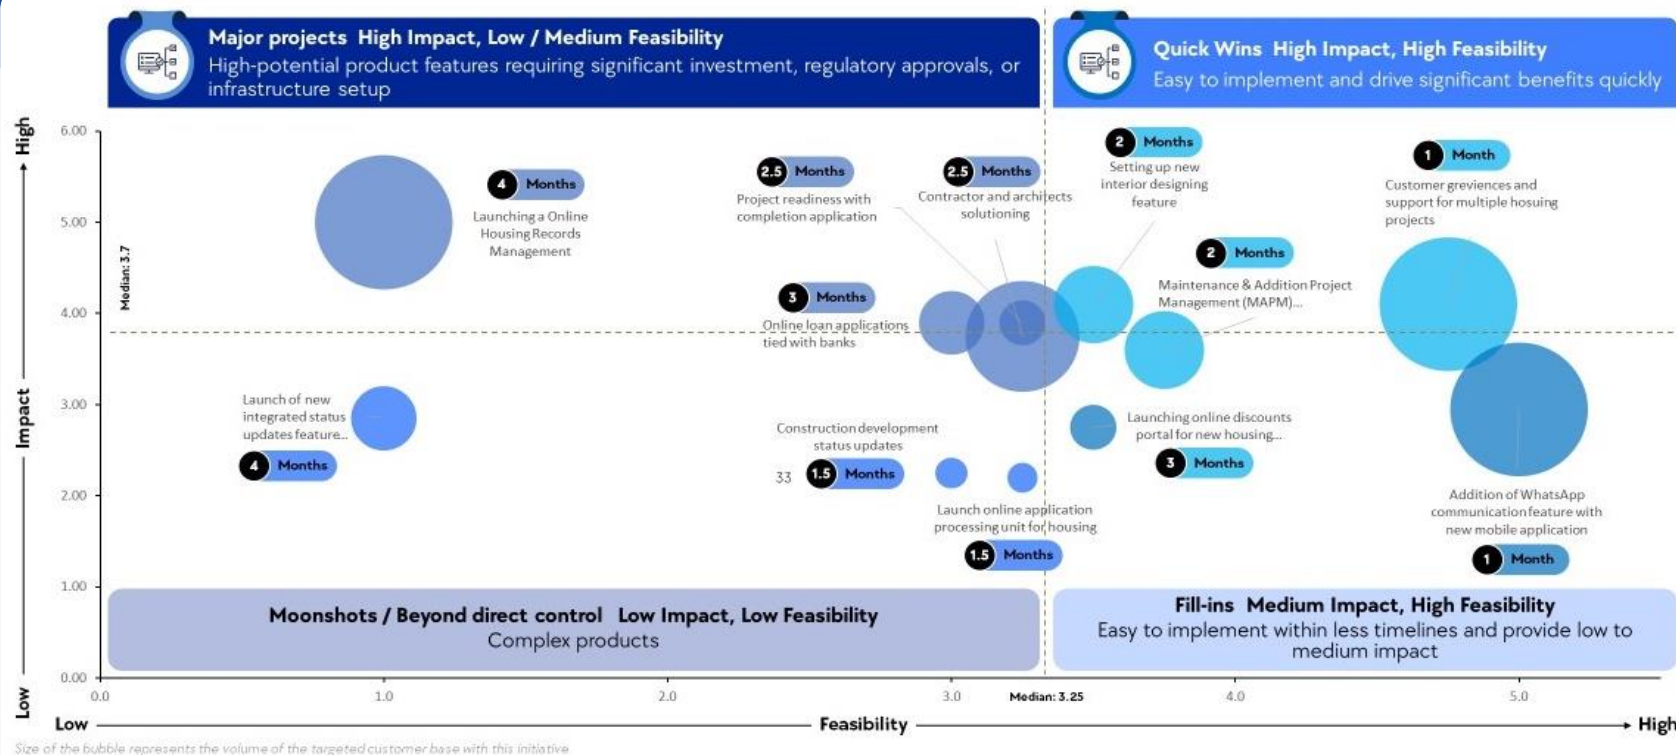

Based on their Target Customer Base, Feasibility, Impact

Approach methodology and coverage

- Identified high-potential growth levers across categories, channels, geographies, and price tiers
- Defined scoring parameters across: Revenue upside, Contribution margin impact, Distribution scalability, Trade complexity, Working capital intensity
- Developed structured heat-map scoring to prioritise opportunities based on commercial attractiveness and execution readiness

Product & Market Opportunity Mapping Matrix (Impact × Feasibility × Channel Depth)

Approach methodology and coverage

- Designed opportunity clusters based on:**
 - Target consumer segment
 - Channel suitability (GT / MT / E-Com / Rural)
 - Distribution feasibility
 - Competitive intensity
- Prioritised initiatives aligned to:**
 - Strategic fit
 - Financial viability
 - Sales force capability
 - Supply chain readiness
- Built phased execution roadmap for top-priority opportunities

Competitive Growth Strategy Analysis

Defining Your Right to Win in a Crowded Category (Whitespace Assessment)

Compare competitor distribution strength vs retailer pain points

Identify over-served & under-served consumer segments

Detect ignored pack-sizes, price tiers, and geographies

Map portfolio, pricing, distribution, and positioning gaps

Competitive Growth Strategy Analysis

Review Competitor Branding and Marketing

Focus area	Methodology	Deliverables
 In-store Branding & Packaging Audit	Conduct in-person audits at retail outlets (traditional markets, mini-marts, supermarkets like City Mart, Ocean) across key regions	Snapshot library of SKUs, packaging types, label claims, shelf arrangement, visibility tactics.
 ATL & BTL Campaign Analysis	Review TV ads, billboards, flyers, local newspapers, and radio spots for top 5 spice brands.	Branding tone mapping: emotional, heritage-led, health-based, modern, etc.
 Digital & Social Media Review	Analyse Facebook pages, TikTok, YouTube, and local food blogs for how brands engage consumers Key metrics: followers, engagement, campaign types, UGC.	Digital performance benchmark + tone of voice/style in social communication.
 POS Materials & Promotions Study	Capture point-of-sale materials (banners, wobblers, free samples, bundling). Track frequency and type of in-store activations.	Best practices in consumer pull strategies at the store level.
 Distribution & Trade Visibility Mapping	Interviews with 10–15 distributors/retailers to understand top-selling SKUs, promotion-heavy brands, and push tactics	Competitor distribution footprint and trade incentive structure.
 Brand Messaging Deconstruction	Analyse product packaging, back-of-pack stories, claims like "heritage recipe," "100% pure," "no MSG" etc.	Brand proposition matrix across 8–10 competitors.
 Pricing Strategy Mapping	Compile price-per-gram comparisons across individual spices and blended packs, across traditional vs modern trade.	Value-tier segmentation (economy, mid, premium) + pricing sweet spot range.
 Campaign Recall & Perception (Consumer Survey Add-on)	Include brand recall, ad recall, and image association questions in the quantitative consumer survey	Brand equity scores: awareness, familiarity, liking, uniqueness.

Market Entry
Roadmap

Consumer & Shopper Journey Assessment

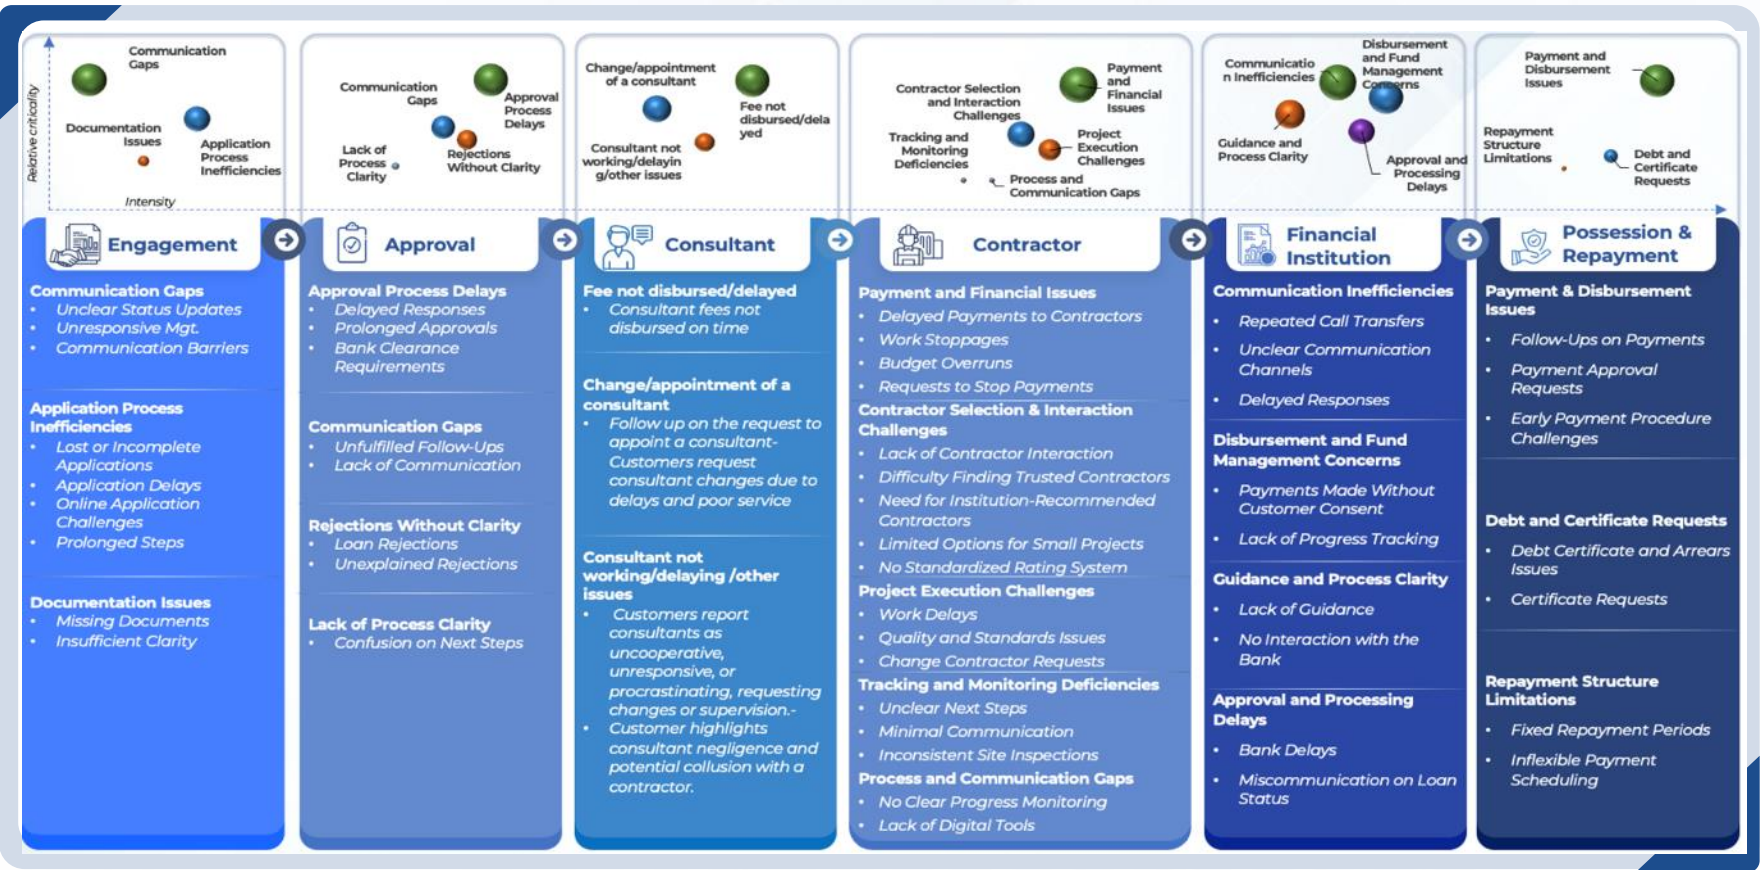

Approach and methodology

- Defined core consumer segments and target buyer cohorts (urban / rural / premium / value-seeking)
- Mapped customer journey in different stages
- Reviewed consumer decision triggers (price, packaging, brand recall, visibility, retailer recommendation)
- Mapped consumer journey across channels (GT / MT / E-Com/ Quick Com)
- Identified friction points at each stage (availability gaps, visibility issues, price resistance, retailer push bias)

© 2026 GreyRadius, Proprietary and Confidential

Consumer & Trade Pain Points & Expectations

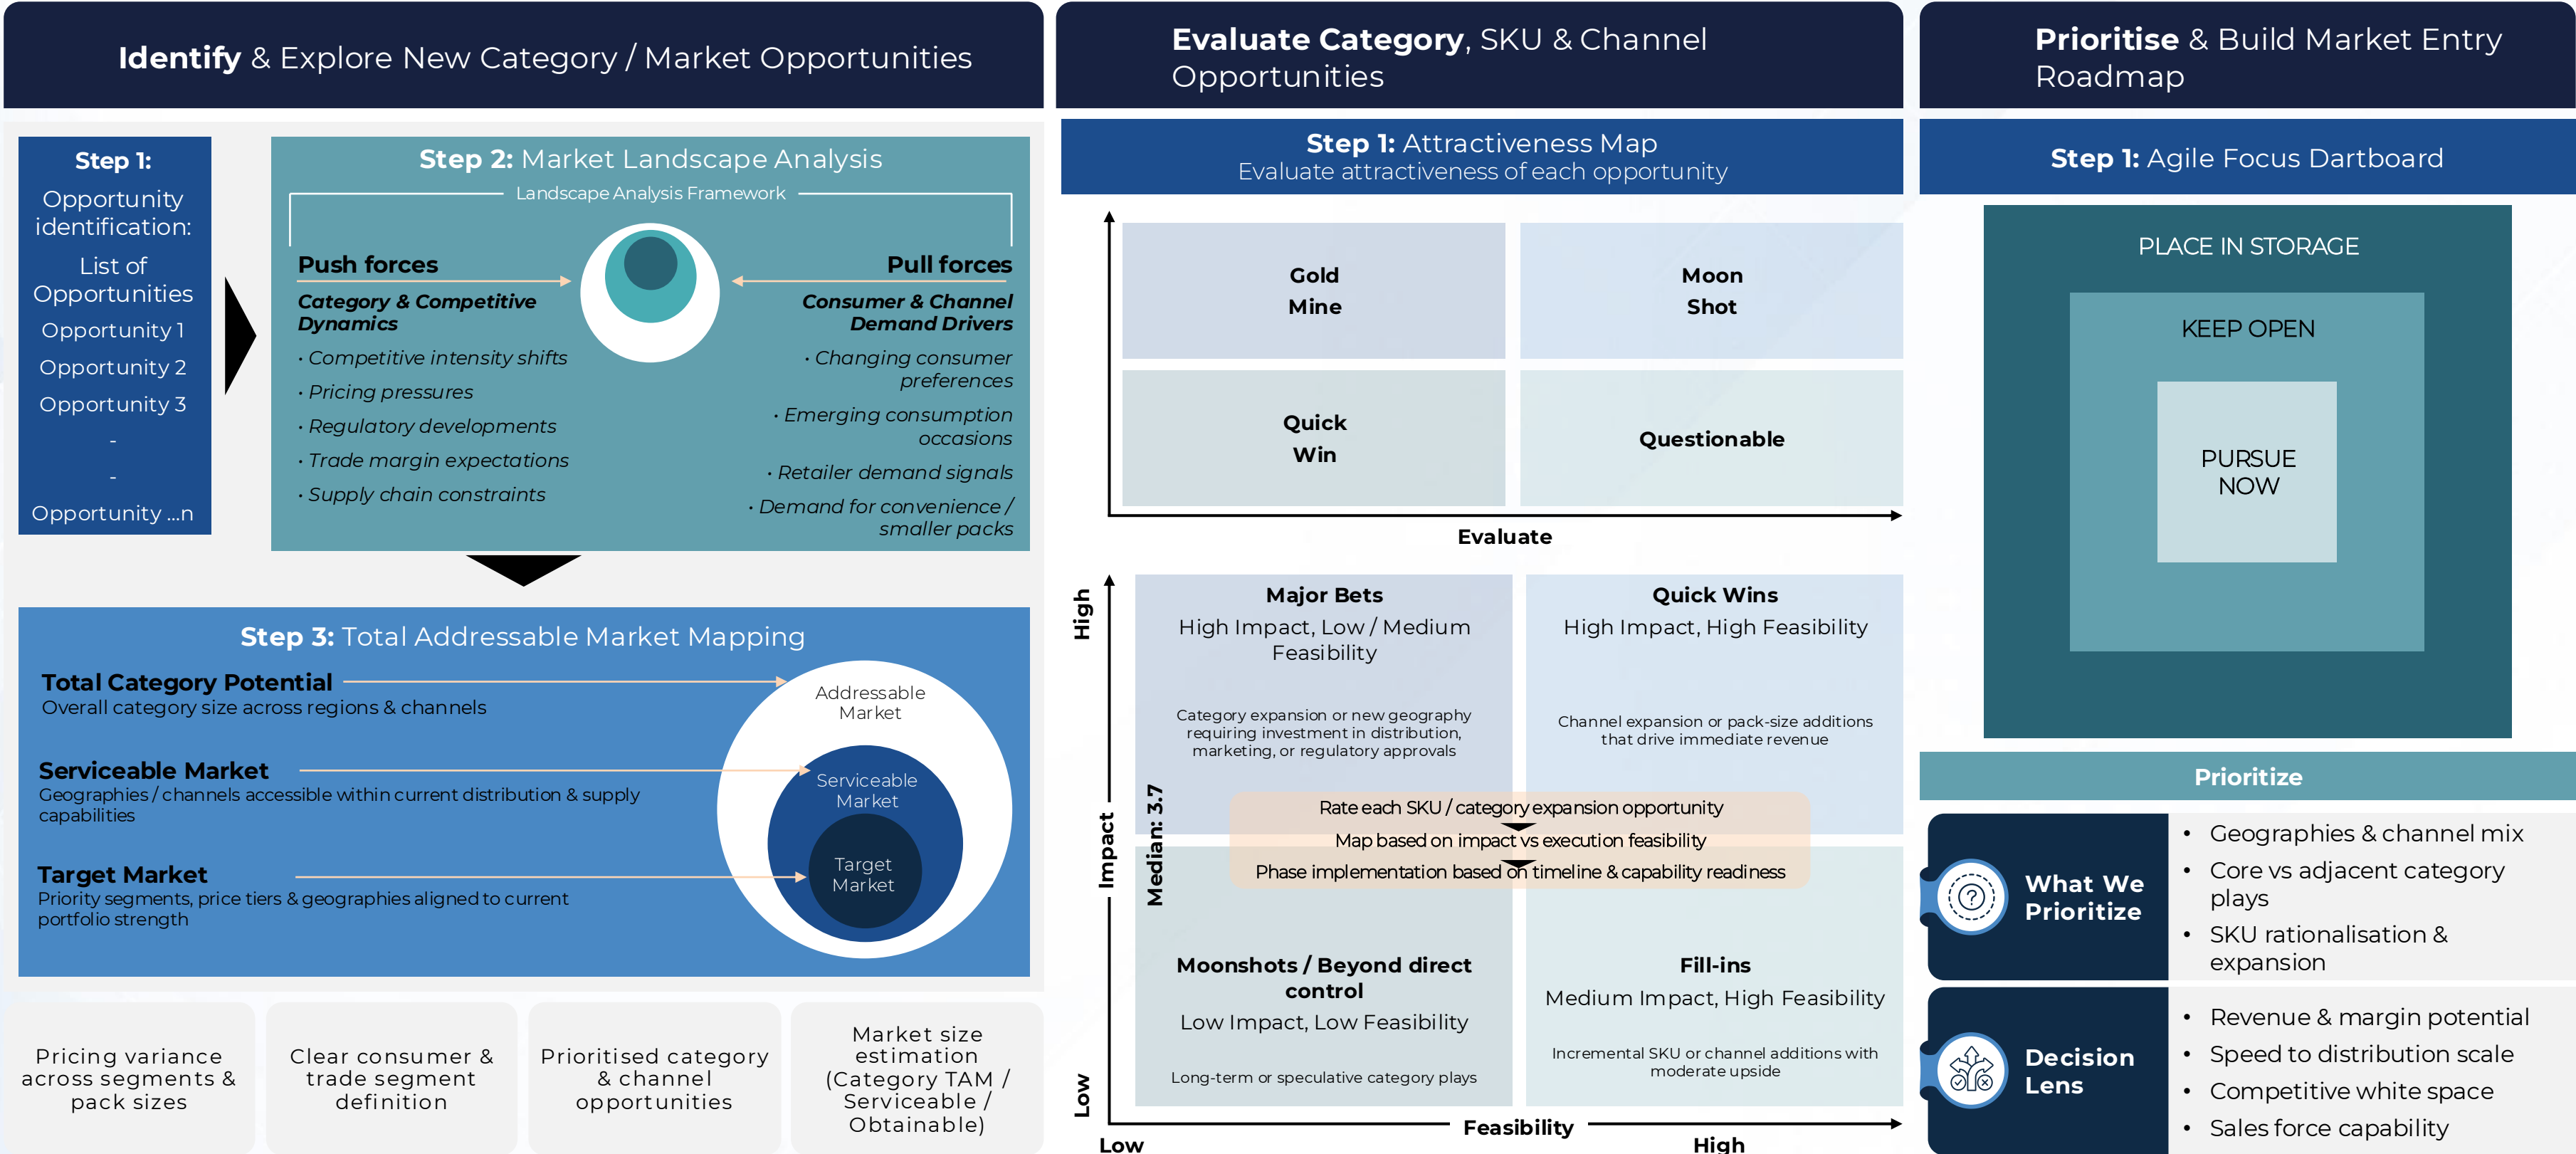

Approach and methodology

- Identified key consumer pain points (price sensitivity, quality perception, packaging usability, brand trust)
- Captured retailer & distributor expectations (margin structure, scheme support, inventory turns, credit terms)
- Assessed whitespace opportunities based on unmet consumer needs & trade dissatisfaction

Market Assessment and Entry Roadmap

Identifying, Evaluating & Prioritising the Right Markets, Categories & SKUs

Milk

Key Positioning Theme

Authentic Taste

Recommended Price Band

₹32-38/450 ml

Strategic Positioning

- Different "No Preservative"
- Community via sampling
- Premium touch across all customer interactions

Ingredients & Authentic Taste

- Stone Ground
- No Preservatives
- Naturally Fermented
- RO Water Used

Regular 900 g: ₹75-79

450 g: ₹40

Ragi 900 g: ₹105-110

450 g: ₹55

Eggs

- Desi Country Eggs at premium (₹18-20/egg)
- Regular brown eggs at ₹16/eggs

The Complete Choice: Nutrition, Freshness & Ethical Farming in Every Egg

- Free-range
- No antibiotics injected
- No bad odor

Market Sizing

Packaged liquid milk market opportunity in Bengaluru

A data-driven, bottom-up approach based on household (HH) consumption and packaged milk adoption

Metrics	Definition
TAM	Total annual milk consumption in all forms (loose + packaged) across all Bangalore households
SAM	All packaged milk consumed in Bangalore in the 6-7 localities where you are launching
SOM	Packaged milk consumption - Market capture from SAM (based on your strategy)

Key Assumptions Used

- Households consumed
- Avg. per capita
- Avg. household
- Households
- Common pack
- Avg. price per liter
- Purchase frequency

Sample Data

₹10,566.11 Cr

₹522.52 Cr

₹5.3 Cr at 1% market penetration

Assumptions derived from Bengaluru's demographics and consumption patterns drive a bottom-up market sizing model using population and household data. Note: Hotels, Restaurants, and Cafés data is not included.

Regional Opportunity Assessment

SAM for Branded Eggs – Target 7 Locations in Phase 1

Just 7 high-potential Bengaluru zones represent ~6.6% of Bengaluru's total packaged branded eggs market size

KEY DATA POINTS:

- Packaged egg consumers (30% of 1,22,36,090 people): 36,708
- Total annual packaged eggs/year: 36,708

Target localities

- Hoskote
- HSR Layout

INSIC

- Branding, consumer insights, certified, high quality packed eggs

Population in Lacs

- Ramamurthi Nagar 0.7
- Banaswadi 0.6
- KR Puram 1.0
- Hoskote 1.4
- Whitefield 1.1
- Marathahalli 1.1
- HSR Layout 1.7

Targeted Locations: 949,176

Targeted Consumers (85%): 806,800

Packaged Egg Consumers (25%): 242,040

Annual per capita Eggs Consumption: 200 Eggs/Year

Total annual packaged egg consumption (units): 242,040 X 200 Eggs/Year = 4.84 Cr eggs/year

SAM Market Value: 33.88 Cr

Target location market size represents ~6.6% of Bengaluru's total branded eggs market value

₹1,713.05 Cr

₹33.88 Cr/year

Financial Feasibility

Market Penetration Scenarios – Revenue Potential in Target 7 Localities

Capturing even 5% market share can generate ₹26-₹29 Cr annually in Phase 1

Revenue Outcomes Across Penetration & Price Points ₹/Litre

Annual Revenue (₹ Cr)	Price Point (₹/Litre)
5.2	65
5.6	70
6.4	80
15.7	169
19.3	19.3
26.1	26.1
28.1	28.1
32.2	32.2
52.3	52.3
56.3	56.3
64.3	64.3

Revenue Potential

Annual Milk Supply (Lacs Litres)	Revenue (₹ Cr)
1.7	5.2
2,202	5.6
6,607	6.4
11,012	15.7
17,619	19.3
22,024	26.1

Penetration of Target HHs

Penetration (%)	Revenue (₹ Cr)
5%	5.2
10%	10.4
15%	15.7
20%	20.9
25%	26.1
30%	31.3

Price sensitivity:

- Moving price point from ₹65 + ₹70 + ₹80 increases revenue potential by 7.6% and 22.9% respectively.
- Premium pricing is viable in affluent clusters like Whitefield & HSR, provided freshness & brand trust are strong.

Daily consumption advantage:

- High purchase frequency (daily) ensures predictable recurring revenue — even low penetration drives steady cash flow.

Competitive angle:

- Achieving 5% share in these 7 areas could make the brand a top 3 packaged milk supplier locally, based on current market size.

Risk & opportunity balance:

- Pricing above ₹70 may invite competitive pushback — mitigation via introductory offers & loyalty programs.

Market Positioning

NativFresh Idli/Dosa Batter Positioning & Messaging

Freshness & Hygiene drive consumer choice, but whitespace exists in "modern, trustworthy" everyday family batter

Consumer Preference

- Mothers & homemakers (60%) are the primary decision-makers + family-focused messaging critical
- Freshness & Hygiene triggers
- Preference for quality ingredients

NativFresh Positioning Theme

- Fresh, natural, preservative-free
- Balances authentic tradition + modern convenience
- Heritage & legacy expert
- Restaurant-quality taste with family nutrition
- Healthy breakfast revolution with millet-based
- Superfood, wellness-focused batters

Ingredients

- 100% Freshness + Sealed freshness, no sour smell

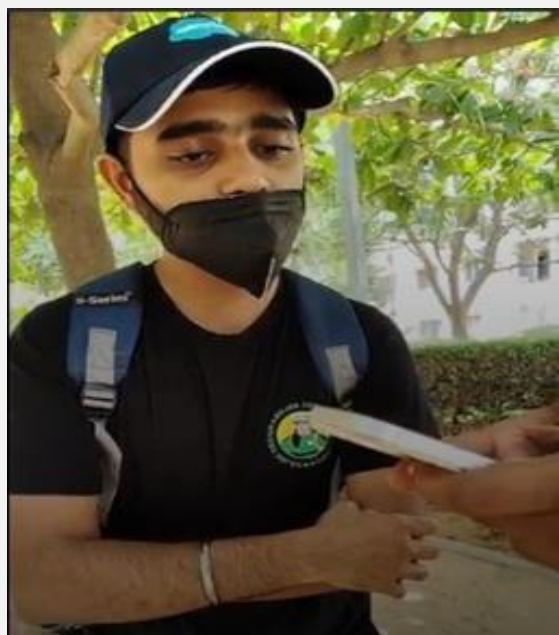

Gap: Players emphasize authenticity, tradition, and health benefits, but none fully own daily freshness + trust + family reassurance for the modern premium household

Ethnic Snacks Brand – Strategic Growth & Expansion

“Better-for-You” Category Launch & South India Market Expansion

Case study		
Ethnic Snacks Company	Product Stage	
	Maturity High	Growth Low-Moderate

 Key Objectives <i>As-Is State</i>	- Identify high-impact growth strategy within ₹50,000 Cr+ ethnic snacks market - Evaluate Organic Launch (Better-for-You range) & Inorganic Expansion (South India acquisition) - Capture rising health-conscious demand (millet, roasted, 0% palm oil) - Build phased expansion roadmap with financing recommendation	 Study output What we did	Industry & Competitive Landscape Mapping	Market share benchmarking vs Haldiram's, Balaji, Gopal, Prataap, Bikanervala
	Opportunity Assessment & Prioritization		Health segment (Millet, Makhana, Roasted SKUs) vs Regional Expansion (South India)	
	Strategic Recommendation		Strategy 1: Launch “Better-for-You” health sub-brand via Q-commerce Strategy 2: Acquire South India brand for geographic scale	

Approach How we did				Impact and results To-be-State		
Internal Stakeholder Alignment (Business & Strategy Team)		External Market Intelligence		- Identified Health Segment as high-disruption, high-growth play - Defined “Crunch Lite” – 0% Palm Oil Millet & Makhana line - Mapped Q-commerce-first GTM for urban millennials - Recommended South India acquisition (SKC) - Designed financing structure (75% cash + 25% equity) - EPS accretive strategy with projected topline addition ₹100+ Cr in FY26		
Structured workshops and discussions with the Business, Sales, Marketing, and Product teams		Primary research across customers, competitors, and end-users				
Business team - Defined growth ambition & revenue targets - Evaluated organic vs inorganic pathways - Analysed category adjacency potential - Defined capital deployment guardrails	Marketing & Brand Team - Assessed rising demand for healthier namkeen - Evaluated Gen-Z & Millennial behaviour shifts - Analysed Q-comm search trends (roasted, lite, no oil)	Personal interviews 100+ Retailers Competitor (Ethnic Snacks)	Partner & End-user surveys 500+ Customers (Gen Z) Retailers Distributors, Stockists			
Sales & Distribution Team - Assessed North vs South distribution gaps - Evaluated absence of distribution network in Southern states - Mapped Q-commerce growth potential - Identified channel-wise expansion sequencing	Product team - Packaging compliance (Halal, labelling, import norms) - Export logistics & lead-time planning - Working capital impact assessment	Total: 600+ interviews and surveys				
				3% increase in market shjare in Snacks category (9% -> 12%)	5+ New SKUs introduction plan	6 months To launch a new product range

European Protein Powder Brand – MENA Market Entry

Market Assessment, GTM Strategy & Regional Launch Execution

Case study		
Premium Protein Supplement Brand	Product Stage	
	Maturity High	Growth High

 Key Objectives <i>As-Is State</i>	 Study output What we did	Market Opportunity Assessment	Category attractiveness & demand analysis across UAE, KSA, Egypt, and North Africa
		Consumer & Cohort Segmentation	Gym-goers (UAE / KSA) \ Endurance athletes (North Africa) Urban health-conscious millennials
		Competitive Growth Strategy	Benchmarking vs U.S. & Indian premium brands on pricing, certification, positioning, and channel strategy
		GTM & Channel Enablement Blueprint	City-level rollout roadmap (Dubai, Riyadh, Cairo) aligned to distribution readiness
		• Launch a European premium protein powder brand across priority MENA markets • Overcome low brand awareness beyond Europe • Adapt positioning, pricing, and packaging for GCC & North Africa • Compete effectively against dominant U.S. and Indian supplement brands • Build a structured, city-prioritised GTM roadmap	

Approach			How we did			Impact and results			To-be-State		
Internal Stakeholder Alignment (Business & Strategy Team)						External Market Intelligence					
Structured workshops and discussions with the Business, Sales, Marketing, and Product teams						Primary research across customers, competitors, and end-users					
 Business team - Defined priority launch markets - Established investment & CAC guardrails - Aligned on premium positioning vs affordability trade-offs		 Marketing Team - Refined positioning to: “European Purity. MENA Performance.” - Built influencer strategy for Meta & TikTok - Designed Amazon UAE, Noon & Sporter marketplace				Personal interviews 40+  Gym owners & Supplement retailers  Competitors					
 Sales & Distribution on Team - Evaluated distributor readiness in GCC markets - Assessed pricing structure including duties & local margins - Prioritised cities based on maturity & demand		 Product & Regulatory team - Assessed formulation fit for local preferences - Ensured halal certification compliance - Adapted packaging for Arabic labelling requirements				Partner & End-user surveys 800+  Gym owners  Supplement retailers  Consumer surveys among fitness-conscious millennials					
						Total: 840+ interviews and surveys					
						 2 new channels Digital-first + Select Distributor Hybrid					
						 USD 8mn Yearly sales without marketing spent					
						 12 months To market entry in UAE and KSA					
						- Successful launch in UAE & KSA with city-focused rollout - Strong early traction among gym-going cohorts - Competitive pricing model balancing premium positioning & regional affordability - Marketplace-ready listings across Amazon UAE & Noon - Structured CAC and performance dashboard for ongoing optimisation - Foundation created for phased North Africa expansion					

Some of the Project Snapshots

Product Positioning and Branding

For traumatized victims of disasters across India, who are looking to get access to basic needs,

That offers a range of easy, ready-to-eat, nutritious food products for disaster response and everyday use with focus on accessibility, reliability and cultural sensitivity,

Brand is a socially responsible, convenient food company,

So that customers have adequate access to safe and hygienic food even during disaster situations, reducing the risk of decreased energy, starvation, dehydration, malnutrition, etc

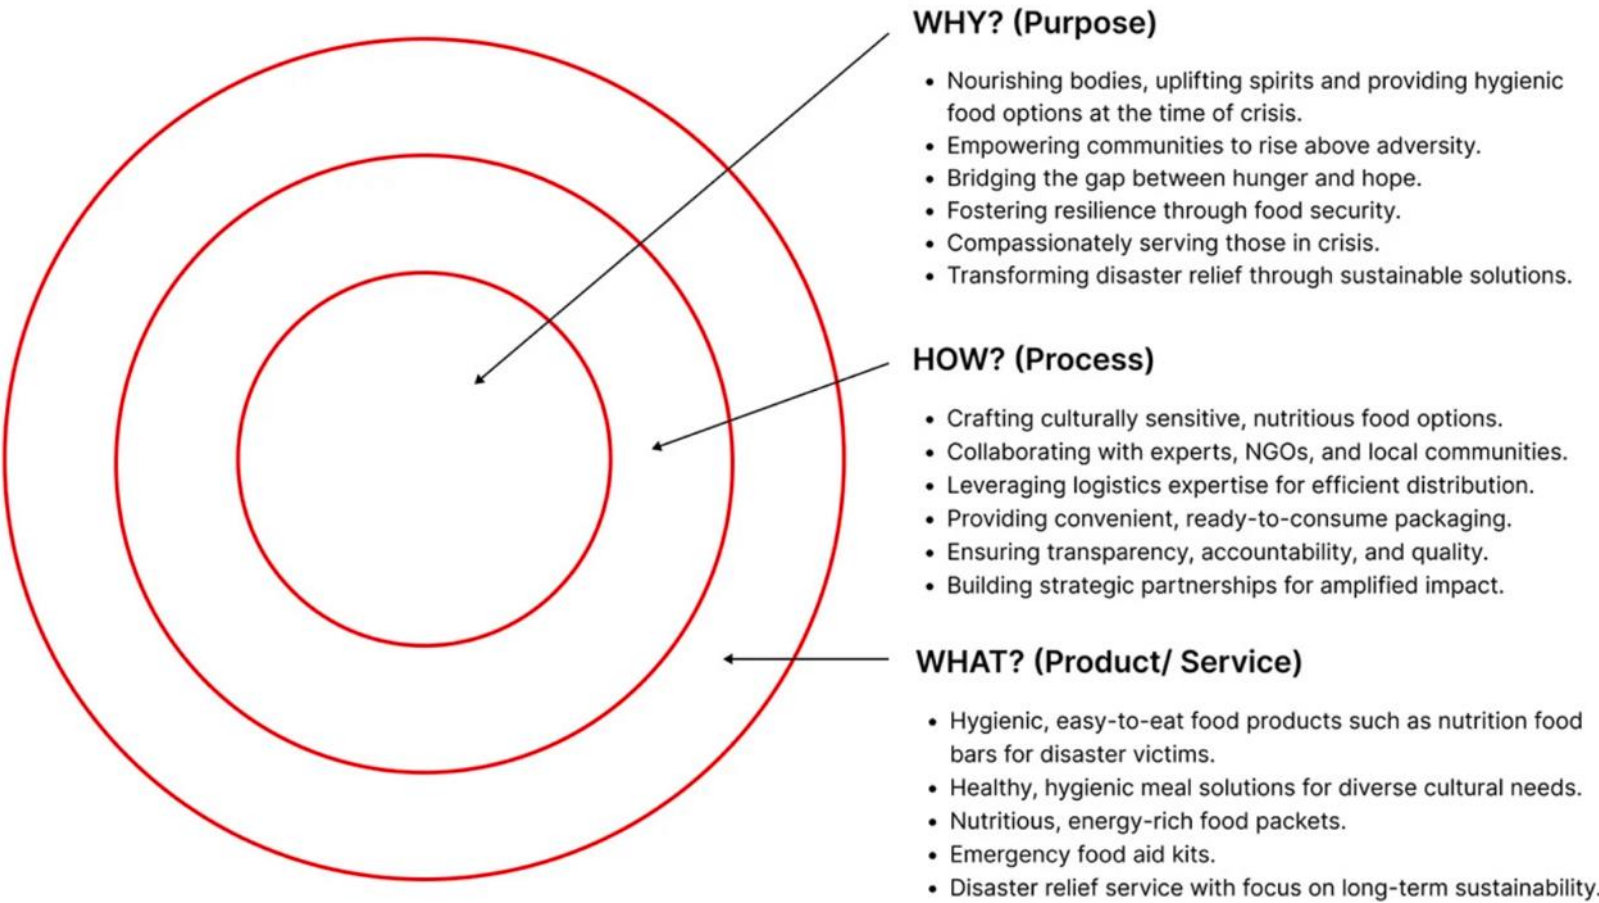

Some of the Project Snapshots

Product Positioning and Branding

POSITIONING AND PERCEPTION

with respect to the MASLOW'S PYRAMID

The brand bridges essential needs with care, focusing on food and nutrition that provide both sustenance and emotional support. It offers security and dignity, helping individuals feel safe, valued, and empowered. By addressing physical and psychological well-being, it creates a foundation for resilience and aspiration.

Because it is a one-of-a-kind Indian food business that addresses complex dietary needs during crises and emergencies, while ensuring food security and uplifting health and moods of victims.

(for price-sensitive buyers)

COMPETITORS' POSITIONING

Too Yumm!

• **Positioning:** "Guilt-free snacking"
• **USP:** Endorsed by Virat Kohli, baked chips, multiple flavors.
• **Strength:** Strong distribution, celebrity endorsement.
• **Weakness:** Taste perception is mixed; packaging looks similar to Lays.

Patanjali nutrition Bar

• **Positioning:** Natural ingredients, protein-based.
• **Strength:** Health-first perception.
• **Weakness:** Limited flavors, premium pricing, Too hard in bite

NOT EASY TO BITE BY CHILDREN

Energy Bar

Immunity Bar

Target Market and respective persona insights

UNDERSTAND THE MARKET LANDSCAPE

MARKET SIZE & GROWTH

• The healthy snack market in India is growing at ~20% CAGR (due to rising health awareness, urbanization, and snacking behaviour)

CONSUMER TRENDS

• Increasing preference for low-calorie, high-protein, baked, gluten-free snacks
• Consumers prefer on-the-go, convenient, portion-controlled packs
• Shift towards eco-friendly packaging (sustainability as a purchase driver)

TARGET PERSONA INSIGHTS

WHO ARE THEY?

• Urban professionals (25-40 yrs)
• Health-conscious students,
• Gym-goers, and mothers looking for healthy snacks for kids

BEHAVIORAL PATTERNS:

• Snack 2-3 times a day
• Replace fried snacks with healthier options (but taste still important)

PAIN POINTS:

• "Healthy snacks taste boring."
• Hard to find quick healthy options at work

BUYING CHANNELS:

• Modern trade supermarkets (Reliance Fresh, EasyDay, VishalMega Mart)
• Convenience stores, e-commerce (Amazon, BigBasket, Blinkit)

Informative but non-engaging content

• MBRHE primarily following an informative approach in content creation and missing on customer engaging content
• Lacks action-oriented elements that engage customers or prompt them to take the next steps

Informative approach not Customer engaging

Evolving customer expectations for digital communication

• Customer preferences are evolving; they increasingly expect real-time, personalized communication through modern channels like WhatsApp, rather than traditional or static content.

Low number of views

Content fragmentation across channels

• Customers are frustrated by inconsistencies in content across platforms
• For example, useful information found on YouTube is not available on the website or mobile app

Instagram

• All key players use Instagram extensively for customer awareness, both before and after they become customers.
• Saudi Arabia has the highest content volume, followed by Bahrain and Kuwait.
• MBRHE has 47K followers with approximately 4K posts.

X (Twitter)

• All players actively use X to post regular updates and content.
• Saudi Arabia leads with 40K posts and 1.3M followers, followed by Kuwait with 6K posts and around 90K followers.

YouTube & Facebook

• Except for Saudi Arabia, none of the players focus on YouTube. Saudi Arabia has about 7K subscribers.
• Singapore makes extensive use of Facebook, with around 176K members.

WhatsApp

• Only Singapore has leveraged WhatsApp Channel for customer updates, with about 97K followers receiving the latest information.

Industry Growth Drivers

The renewed focus on commercial sectors is paving the way for investments in the region

Boom in e-commerce sector

Increased trade globally

Economic diversification agenda

Mega investments by the government

Screening – 2 (1/15)

Top 3 Countries selection from the list of screening - 1

Selection of top 3 countries based on the markets identified from Screening 1 phase

Scoring methodology – Scores have been assigned based on the value observed for the 6 countries finalized for the study. The highest value in each field is awarded a maximum score of 6. For instance, if India has the highest sector score, it receives a score of 6, while Kuwait, with the lowest value, receives a score of 1. In cases where data for a country is unavailable, it is ranked as 0.
